Response to Election

Applicant's election with traverse of species A as illustrated in figures 1B-2B in Paper No. 5 is acknowledged. The traversal is on the ground(s) that separate species are not disclosed in this application. This is not found persuasive because applicant has failed to argue the different species are obvious variations of one another and are not patentable distinct from one another. If the species are obvious variations of one specie, it is requested applicant state so in his next response.

The requirement is still deemed proper and is therefore made FINAL.

Claims 4-9 and ^{cn}~~14~~-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 5. Claims 4 and 14 do not read on the elected species but rather on at least non-elected species P.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 10-13 and 20 are rejected under 35 U.S.C. 102 (b) as being anticipated by
